LANDSCAPING UPDATE

Campbell Park Community Council

Winter and Summer Maintenance: Your Questions Answered

Following recent consultation feedback, we wanted to share a bit more information about how we look after the landscape throughout the year, what happens in different seasons, and where best to direct certain enquiries. We hope this helps explain how our work is planned and how residents can get in touch when something needs attention.

What happens during winter maintenance?

Winter is when the majority of our larger shrub and woodland work takes place. This can range from lighter hedge trimming to more significant work such as coppicing or thinning woodland areas.

Most locations are maintained annually, but some areas only need periodic attention depending on growth rates and condition, a woodland area or a hedge requiring a regeneration coppice will be carried out every 2-5 years. Our tractor flail carries out much of the large-scale hedge work, while teams using chainsaws and hedge cutters complete the remaining tasks.

This seasonal approach allows us to manage plant growth effectively, improve visibility, and prepare green spaces for healthier regrowth in spring.

What happens during summer maintenance?

Summer is when the big mowers come out. In recent years, we've seen the mowing season start earlier — sometimes as early as March — due to warmer weather.

The mowers cover the larger open spaces within the contract, while teams using strimmers and hand mowers tidy areas the machines can't reach, such as edges, obstacles, and tighter spaces.

Over time, we've significantly reduced our use of herbicides, choosing mechanical methods like strimming wherever possible. That said, there are still a small number of problematic areas where targeted spraying remains necessary.

In high-traffic locations, including busy pathways and alleyways, we increase hedge-cutting frequency to keep access routes clear. However, with teams split between mowing and strimming, it isn't always possible to cut back all summer growth immediately. This is why some areas receive a more comprehensive cut back during the winter period.

We continually monitor our landscape inbox, so if you feel an area needs extra attention before winter, please get in touch at: **landscape@campbell-park.gov.uk**

What about tree work?

All of our tree maintenance is carried out from the ground up and technical tree work requiring climbing or dismantling is the responsibility of MKCC who use a specialist tree team to carry out the work on their behalf. Our responsibility is to maintain:

- 2-metre clearance over footpaths
- 3-metre clearance over carriageways

If your enquiry falls outside of these specifications, it's best to contact Milton Keynes Council (MKCC) directly. They have a dedicated team of Tree Officers who can advise on inspections, ownership, and next steps.

- **Report overhanging trees and landscape issues | Milton Keynes City Council**

Why is litter sometimes visible after winter work?

We appreciate that winter shrub work can uncover litter that's been hidden over time. As a small team with a full winter programme, we're not always able to carry out litter picking alongside our landscaping work.

Where we come across heavily littered shrub beds, these are reported to MKCC, who have a dedicated litter-picking team. In many cases, these areas may already be included in their regular cleaning routes.

The same applies to fly-tipping. There is a specialist team within MKCC that responds to fly-tipping reports, and anything we encounter during our work is passed directly to them.

- **Report litter, fly tipping or graffiti | Milton Keynes City Council**

Who looks after footpaths and hard surfaces?

Footpaths, alleyways, and other hard-standing surfaces are maintained by Highways, not the landscaping team. Issues such as uneven paving slabs or deteriorating paths can be reported directly to them.

- **Roadworks and road maintenance | Milton Keynes City Council**

Alongside our regular, ongoing maintenance, we've also been putting some concentrated effort into our parks and open spaces.

We've seen an increase in requests from residents for clearer sightlines and improved visibility, particularly as the evenings become darker. This is especially important with more people now using electric scooters and bikes alongside pedestrians on our redways and pathways. By opening up views and reducing dense planting in key areas, we're helping these shared spaces feel safer and more welcoming for everyone.

As part of this work, we've also brought in a specialist mulching robot to help remove some shrub beds that had reached the end of their natural life. These areas were no longer thriving and were difficult to maintain, so this approach allows us to reset and regenerate the space in a sustainable way.

Fishermead and Oldbrook were the first two estates to benefit from this regeneration work, and we're pleased with the early results. Improvements across all estates will continue over the coming months as we work through priority locations.

This targeted approach allows us to respond directly to resident feedback while ensuring our green spaces remain safe, practical and enjoyable for years to come.

we'd like to thank everyone who took the time to complete the consultation feedback form. Your comments and suggestions play an important role in shaping how we plan and deliver our landscaping work, helping us focus on the areas that matter most to residents. Our landscape inbox is continually monitored, and we always welcome additional enquiries or feedback. If there's something you'd like to share, please get in touch with us at **landscape@campbell-park.gov.uk**.

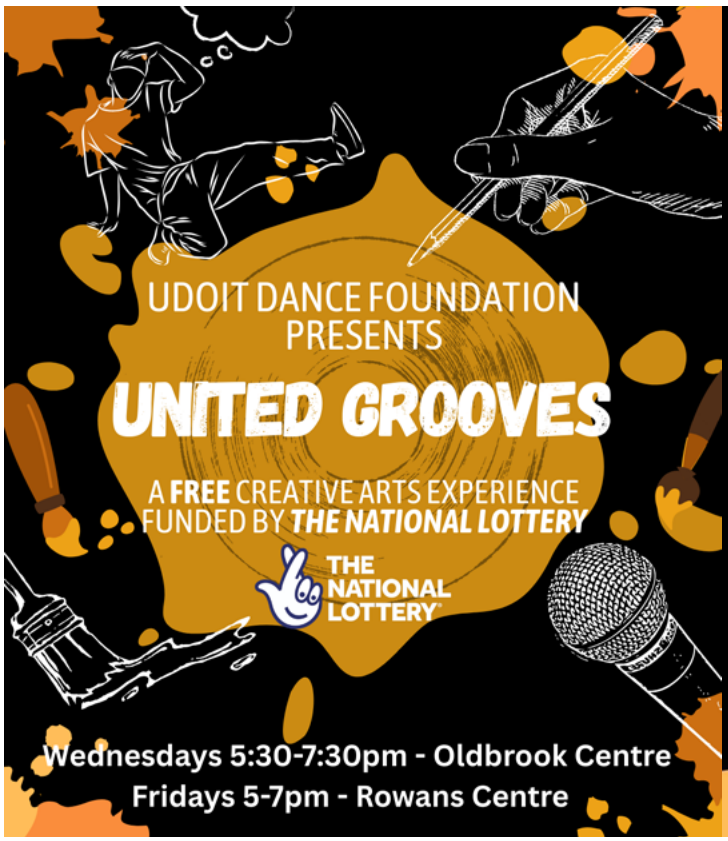

Landscape team support Willen Hospice

The CPCC Landscape team helped Willen Hospice again this year, chipping hundreds of the Christmas trees they had collected from the many homes around Milton Keynes who had donated to Willen Hospice for their tree to be collected after the festive period. This annual project raises vital funds for the Hospice and relies on the support of teams like ours to provide their services for free to make sure the Hospice can gain as much as possible from the donations received to support their services in Milton Keynes and the surrounding area.

This year Willen Hospice raised over £35,000 including Gift Aid.

Free CO alarms that could save lives

Citizens Advice Milton Keynes is raising awareness about Carbon Monoxide, an odorless gas which is otherwise known as a silent killer. Anyone using gas appliances at home - such as gas boiler, cooker, fireplace or barbeque - is at risk of CO poisoning. There is no way to see, smell or detect a CO leak other than by with a simple appliance, therefore, all residents who have has appliances at home should have a working CO alarm, sometimes required in more than one room. We can arrange a free CO alarm delivery to anyone who lives in Milton Keynes. This simple step could save lives.

CO awareness is delivered in the community as part of wider Energy Advice by Citizens Advice. In the view of rising energy costs, we also offer energy saving advice, income maximisation advice including benefits and grants. We can help with communication with your energy supplier, offer debt advice specifically for energy debts, as well as check your eligibility for local support and schemes aimed at underrepresented community groups. More details about the support available on our website **miltonkeynescab.org.uk/get-advice/energy-advice/**

You can request a free CO alarm by email **energy@mkcab.org.uk** (please send us your name, address, date of birth, and explicit consent to record your information and share it with the delivery company). Alternatively you can call us on 0808 278 7991 or Text ADVICE to 88008 and we will contact you from a withheld number within 3 working days.

Campbell Park Community Council has kindly agreed to accept referrals. Please contact them directly if you need a referral for energy advice and a CO alarm but are unable to contact Citizens Advice by email.

citizens advice Milton Keynes

Citizens Advice Milton Keynes is a local charity that has been providing advice, support and assistance to people across the city since 1972. Our services are free, confidential and impartial – we are not a government agency.

We help people with important matters that affect their daily lives, such as:

- debt
- welfare benefits
- housing

We can also support you if you're having problems at work or going through a relationship breakdown, and we can refer you to other organisations even if your issue falls outside our remit. For many people, we're the first port of call when something's worrying them.

Citizens Advice Milton Keynes has a large network of community-based outreach locations across the city so that people can access advice closer to where they live. We're thrilled to be working with **Campbell Park Community Council (CPCC) who have kindly agreed to fund this new service**, and we're pleased to be welcoming them to our growing network of neighbourhood advice services.

- **Where**: Appointments are held at the CPCC Community Hub, Springfield Boulevard, Springfield, Milton Keynes, MK6 3JS.
- **How to book:** This service is **appointment only** (not a drop-in).
- Please use the **secure booking form** via the QR code below to arrange an appointment with us or visit **www.miltonkeynescab.org.uk/get-advice/outreach-locations/** where you can access a link to the form for Campbell Park residents.

This service is only available to people who live within the Campbell Park Community Council area.

CPCC GRANTS

Campbell Park Community Council

Grants & Free Use too support local community groups

Campbell Park Community Council is keen to support groups delivering services in the CPCC area.

Any group, society, playgroup, or charitable organisation in the CPCC area, or benefiting residents of the CPCC area, may apply for a grant from the Community Council. If you can show us that the grant will be put to good use, we are only too pleased to help.

Would like to start a new activity, deliver a community service or start a community group for local people within the CPCC area, but need a venue? Perhaps you need use of a space to run your sessions, to enable you to gauge interest or to build up the attendance but without the burden of venue hire charges. We might be able to help you!

Please contact us or visit our website at **https://www.campbell-park.gov.uk/services/grants/** to find out more.

We recently awarded the following grants;

- £1500 to Ujhasuma Africa CIC towards the delivery of a new cultural and musical education programme in Springfield.

- £490 to Willen Residents Association to help them purchase benches for residents to enjoy the pond area
- £1000 to Action Speaks CIC to support their work in the Fishermead Community Garden as well as their Community Awards and Christmas party events.
- £500 to Milton Keynes Christmas Party for the Elderly towards their event for local elderly residents that would otherwise spend Christmas alone.
- £1000 to Awake to Know Africa to enable them to deliver a 4 week programme of story telling and basic drumming for cultural education of African values of harmony with nature, respect for the land and sustainable living in Springfield.

For more information about our grant funding, please visit **https://www.campbell-park.gov.uk/services/grants/** or contact the Community Officer on 01908 608559

We invite applications from new or existing community groups or charitable organisations that wish to provide a service/activity which helps to meet the needs of local residents.

We may be able to offer your group:

- a **grant** towards the cost of delivering projects
- **free use** of CPCC's community spaces.

Support available for community groups delivering services in the CPCC area

(Oldbrook, Fishermead, Springfield, Woolstone & Willen)

Springfield Boulevard, Springfield
Milton Keynes MK6 3JS

If you have any questions please email

community@campbell-park.gov.uk

Calling all garden lovers!

Springfield has been selected for one of MKCC's forest garden sites, which will consist of some new tree and shrub saplings (native varieties, including several fruiting varieties) and a small community allotment site, with raised beds and fruit trees. We're looking for volunteers to help maintain it and enjoy the produce as it is available!

Experience doesn't matter, so whether you're a green fingered expert, or just fancy spending some time outside with your hands in the soil, and you want to have a go at growing fruit, vegetables, herbs or cut flowers, get in touch!

All ages are welcome, and we'll be looking to arrange one or two mornings a week, throughout the year. We'd like it to be a relaxed environment for people to come together, reap the mental health benefits of spending time outside with like-minded people, surrounded by nature, and literally enjoy the fruits of their labour.

To get involved please email **community@campbell-park.gov.uk**
or call us on **01908 608559**

Hello from everyone at Shepherdswell Academy

A Busy and Brilliant Autumn Term at Shepherdswell Academy

This Autumn Term has been an exciting and energetic start to the school year at Shepherdswell Academy. We have been delighted to welcome our newest pupils into Nursery and Reception. They have settled beautifully and have enjoyed exploring, learning, and discovering—both indoors and out in our wonderful learning environment.

Learning Through Numbers and Patterns

Our maths learning has been full of curiosity and hands on exploration. The children have been developing their understanding of numbers, spotting and creating patterns, and practising essential addition and subtraction skills. More recently, they have been learning to recognise and identify 3D shapes. A favourite activity was our lively shape finding game, where pupils matched 3D shapes to real-life objects. This helped them not only learn the names of the shapes but also see how they appear all around us.

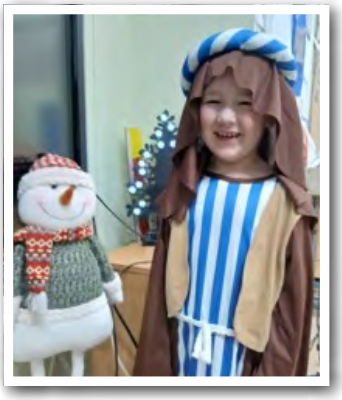

English Adventures with The Jolly Christmas Postman

In English, pupils have thoroughly enjoyed immersing themselves in The Jolly Christmas Postman. They spotted lots of familiar characters along the way, including the Three Bears, Little Red Riding Hood, and Humpty Dumpty. To deepen their understanding, the children created detailed story maps to help sequence the events and retell the story in their own words—showing great recall and creativity.

Wriggly Nativity Magic

One of the highlights of the term has undoubtedly been preparing for our Wriggly Nativity! The children have worked incredibly hard learning songs, remembering their lines, and perfecting their dance moves. Their enthusiasm has been infectious, and we are so excited for them to share their performance with families and friends. It promises to be a truly memorable celebration of their hard work and festive joy.

If you have a nursery or school age child and would like to organise a tour please contact our school office **0908 735865** or **parents@shepherdswell.emat.uk**

The Willows and Early Years Centre
Winter Report

Before the Christmas break we all enjoyed a lovely lunch together cooked by our chef and a visit from Father Christmas. Happy New Year. The children had a fabulous time before the holidays in school practising and performing their shows to their parents which meant they could all show case their talents.

We have started the new year with a bang. We have been completing our Global community week, when children learn and celebrate their friends' origins learning about countries and cultures. The children all enjoy the activities' particularly the cooking and eating ones!!

The Open University

This term we are very excited to be having visits from The Open University, Story contracting and Peter Bakre where the children will take part in research, STEM activities and have a chance to ask a real life Olympian their questions. Our children are excited to take part in the learning curriculum and love the real life experiences which are on offer.

CPCC
Campbell Park Community Council

Since we opened the CPCC Community Hub in Springfield, a number of residents have asked us how they can get involved and help with community activities either at the Hub or in our local area.

Would you like to get involved?

There are various things you could help us with and we're always open to your ideas too. We are also keen to hear from you if you would like to share skills or interests with others

If you would like to join our Volunteer Register, please send your details to community@campbell-park.gov.uk Alternatively you can call us on 01908 608559 or pop in to see us at the CPCC Community Hub to find out more.

Shaping Activity Change Together: Partners Unite at Two-Day Milton Keynes Place Investment Co-design Workshop

Campbell Park Community Council joined over 40 partners from across Milton Keynes on 14th and 15th January at a two-day *Place Investment Co-design Workshop*, convened by the Milton Keynes Place Expansion Partnership (MK PEP). **The event, which was hosted at the CPCC Community Hub**, brought together representatives from local government, health, education, voluntary and community organisations to deepen collaboration and shape the next phase of place-based investment in the city - working together to listen to the people who live there and doing what works best for that community.

Discussions focused on improving physical activity levels by addressing broader determinants including housing, food, wellbeing, and connection to others - challenges raised by residents in early insight work.

Across the two days, participants worked together on:

- Understanding local strengths, challenges, and assets
- Reviewing community insight, including work led by the Open University
- Exploring community-centred approaches to designing change
- Identifying opportunities for system-wide action
- Prioritising shared areas of work for the next phase

Partners will now continue working together as the MK PEP Board develops a full application for Sport England's Place-Based Investment, to be submitted in early Summer 2026. This investment aims to support long-term, community-led change across 11 estate areas of Milton Keynes.

More information about the Place-Based Investment programme is available at:
www.leapwithus.org.uk/mk-pep

RESULTS OF THE ANNUAL RESIDENT CONSULTATION

The Annual Resident Consultation drew a strong response from the community, with residents from all local estates sharing their views. Thank you to those who took the time to complete the questionnaire. Your views provide us with valuable feedback and help inform future discussions.

We have taken a detailed look at all the feedback received and have summarised some of the key points from the responses below;

- Oldbrook had the highest number of participants, followed by Springfield, Willen, Woolstone and Fishermead.
- When it comes to local issues, most people supported a modest increase in the precept for the coming year.
- Residents expressed mixed feelings about how well their voices are represented, with many feeling there is room for improvement, but a good number also feeling positively about their input being heard.
- Community engagement is important to residents. Many said they would be more likely to join meetings if they were kept informed about outcomes and felt their contributions made a difference.
- The idea of a 20mph speed limit in some estates was popular, showing a shared interest in safety.
- The CPCC Community Hub in Springfield is still new to many, but those who have visited especially enjoy the Community Cafe.
- Most people still prefer receiving a printed copy of the community publication, and nearly everyone finds its content useful and informative.

Please look out for the next consultation later this year as your ongoing input is valuable to us.
